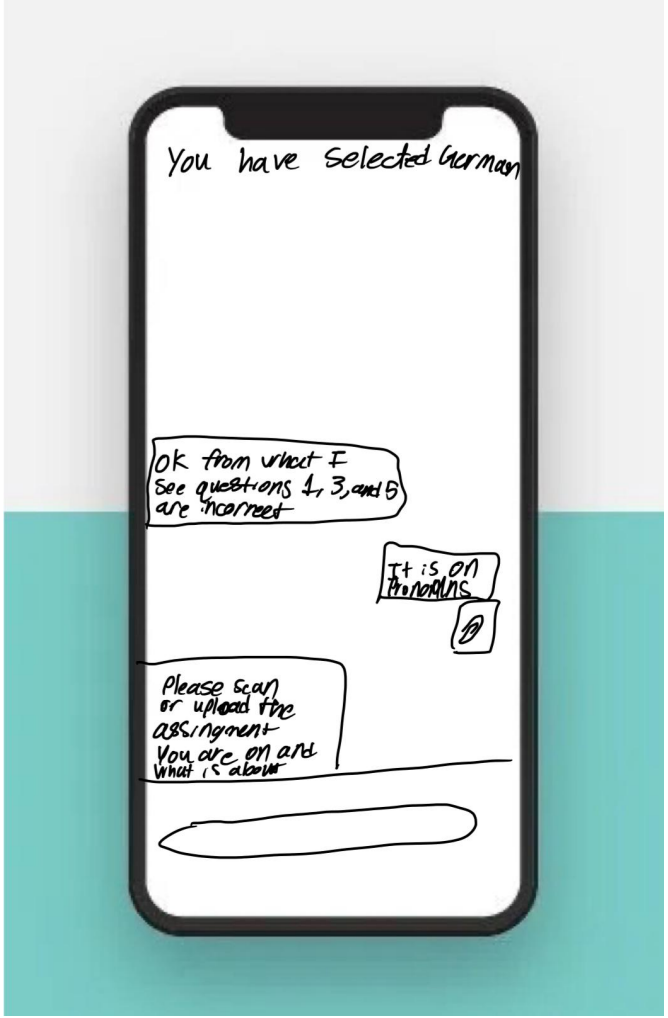
Select which topic you need help on *
coding
english
geograph
spanish
history
german
math
econom
essays
chemist
Bio
Physics



You have selected German
Ok from what I see questions 1, 3, and 5 are incorrect
It is on Pronouns
Please scan or upload the assignment You are on and what is about

You have selected coding
Ok please enter your program and I will try and help
my program isn't working
Ok what are the parameters what is the issue
Java
what language are you coding in?

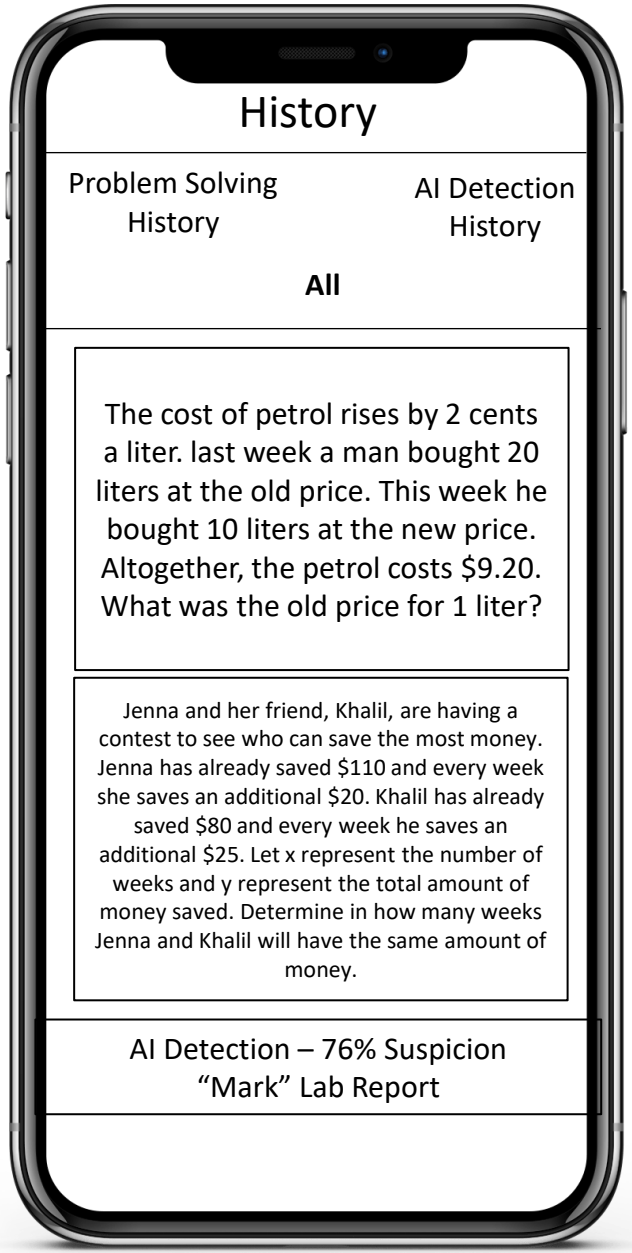
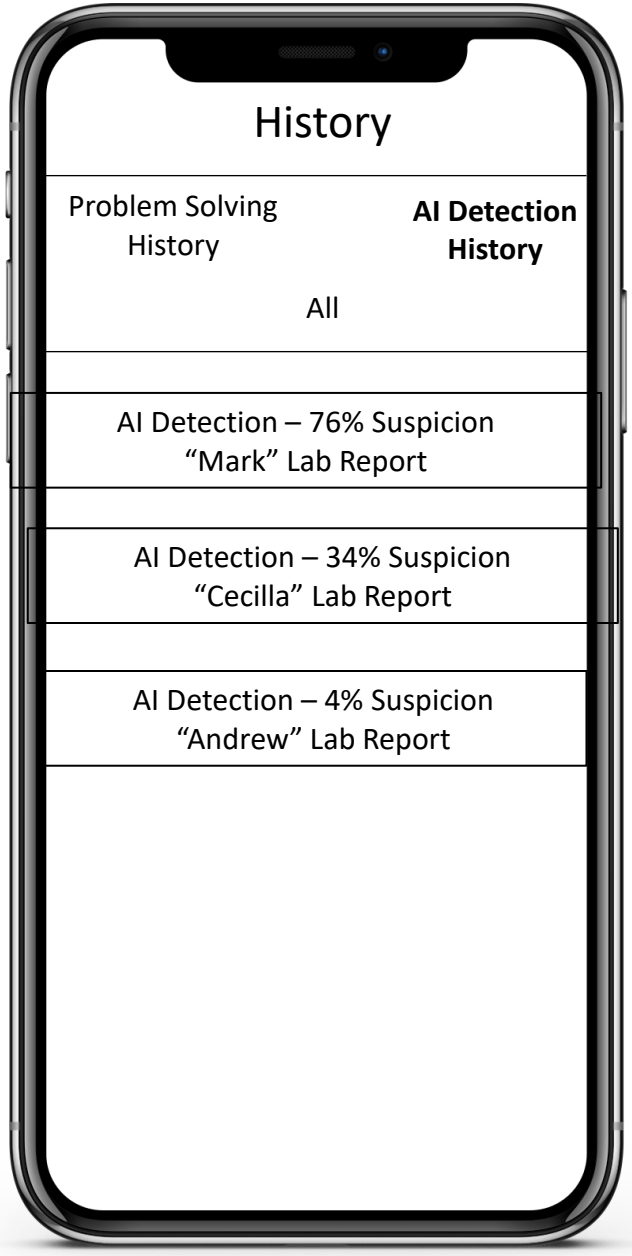
The History button allows you to see and interact with all past inquires given to the app.

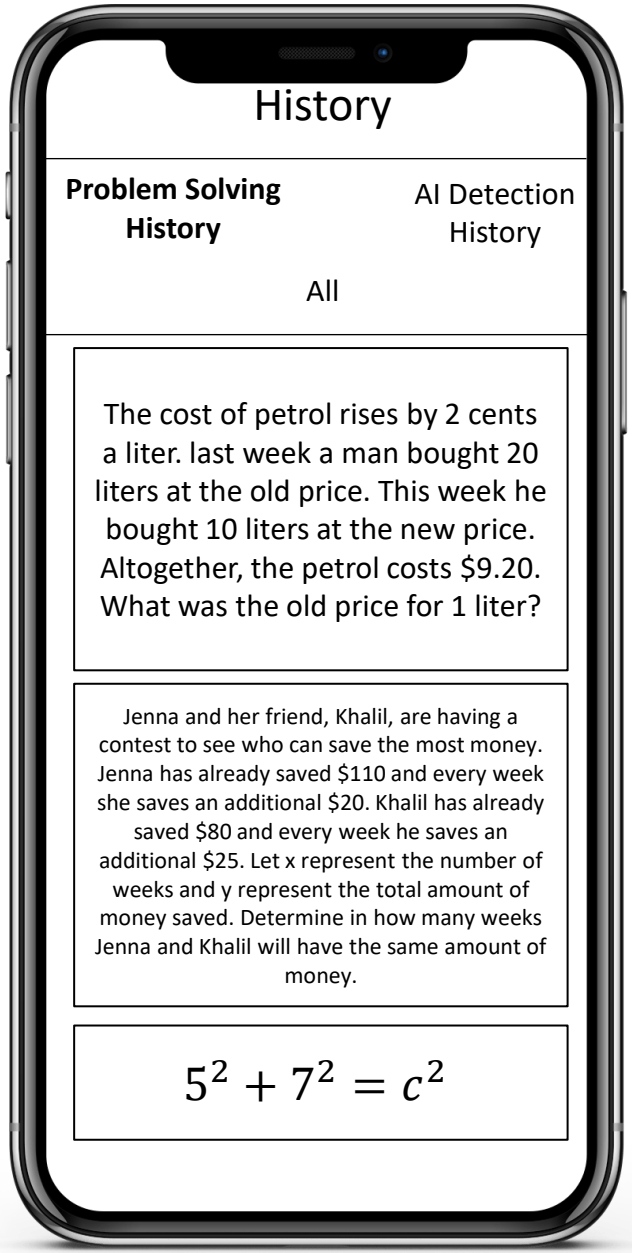
The user will be greeted with all of their previous entries as well as a choice to only see certain types.



Currently “All” is selected so the user will see all of the most recent entries into the app.

By selecting the “AI Detection” tab you would be able to go back and see the exact information regarding the percentage of suspicion that you were presented back when you first ran it through the app





By selecting the “Problem Solving” tab you would be able to go back and see the Problems you have previously used the app on as well as both the solution and steps to the problems once you click onto them.
